Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

1846.

REPORT OF THE COUNCIL,

READ AT THE ANNIVERSARY MEETING, 25TH MAY.

THE Council have to report that since the last Anniversary Meeting there have been elected 40 new Members. There have occurred 29 vacancies, of which 13 are by death, and 16 by resignation; and the Society now consists of 695 Members, besides 40 Honorary and 22 Corresponding Members.

Finances.—It having been found that, notwithstanding the efforts made to keep the expenditure of the Society within its income, this desirable end had not been effected, a Special General Meeting of the Society was convened on the 13th of May, when, as a means of increasing the income, it was resolved,—

1. That the compositions to be taken hereafter in lieu of annual payments, be 25*l.*, exclusive of the admission fee, instead of 17*l.*
2. That the Journal be no longer delivered *gratis* to Members, but sold to them at a price not exceeding 4*s.* the part, or 8*s.* the annual volume.

Arrears.—Notwithstanding the exertions made by the Secretary and the Collector to recover the arrears due to the Society, they amounted, on the 1st of January of the present year, to 453*l.*, of which it has been found impossible to recover, up to the present date, more than 76*l.*; and as there are fresh defaulters every year, it seems hopeless to expect that all subscriptions will ever be regularly paid.

Money Grants.—Although the Council have, from the state of the Society's funds, been unable to make any Money Grants

during the past year, yet they have, through their influence, succeeded in affording assistance to two travellers from whose exertions they trust material accessions may be made to geographical knowledge. A sum has been raised by subscription to enable Mr. Duncan to continue his labours in Western Africa; and scarcely had this been done when a fresh call on the Council was made to enable Mr. Brockman, who had for some time been attempting to penetrate into the interior of Hadramaut, to take advantage of a favourable opportunity which occurred for prosecuting his purpose, but which he must forego for want of sufficient funds, having already expended his private resources. On this occasion the Council appealed to Her Majesty's Government, and to the Court of Directors of the East India Company, from each of which they received the liberal donation of 100*l.*, making up the sum stated by Mr. Brockman as requisite to provide the necessary means for his journey; and the sum of 200*l.* has accordingly been lodged at the Banker's, to answer the calls to that amount which Mr. Brockman has been authorised by the Council to make on the Society.

Royal Donation.—Of the two gold medals forming the donation of Her Most Gracious Majesty, that called the Patron's Medal has been awarded to Professor A. Th. v. Middendorff, of the University of Kiew, for his explorations in Northern and Eastern Siberia; and that called the Founder's Medal to Count P. E. de Strzelecki, for his explorations in the south-eastern portion of Australia, and his valuable publication, in which he has consigned the results of his observations.

Private Donations.—The Council have again to express their grateful sense of the liberality of James Alexander, Esq., who has made a fourth donation of 50*l.* to the Society.

Journal.—The Journal, during the past year, has been continued with regularity; and the Council have to announce that they propose to effect a reduction of the expense of that publication: first, by a limitation of the number of illustrations; and, secondly, by having obtained from the printer a further reduction in the cost of printing.

Library.—The accessions to the library since the last Anniversary Meeting consist of 260 books and pamphlets; 100 sheets of maps and charts, of which latter 46 have been presented by the Lords Commissioners of the Admiralty, with their usual liberality.

In conclusion, the Council beg to express the hope that, from the effect of the new resolutions respecting the payment for the Journal, and the reductions which will be effected in its cost, and from the increase in the amount of the compositions, which it is anticipated will increase proportionately the number of annual subscribers, and also from a diminution in the rent for apartments, when the time for which our present rooms are held shall expire, the financial state of the Society will be so improved as to enable the Council to carry out those objects which they have ever been anxious to effect for the progress of geography.
